FOS CERAMICHE

ARTIKA

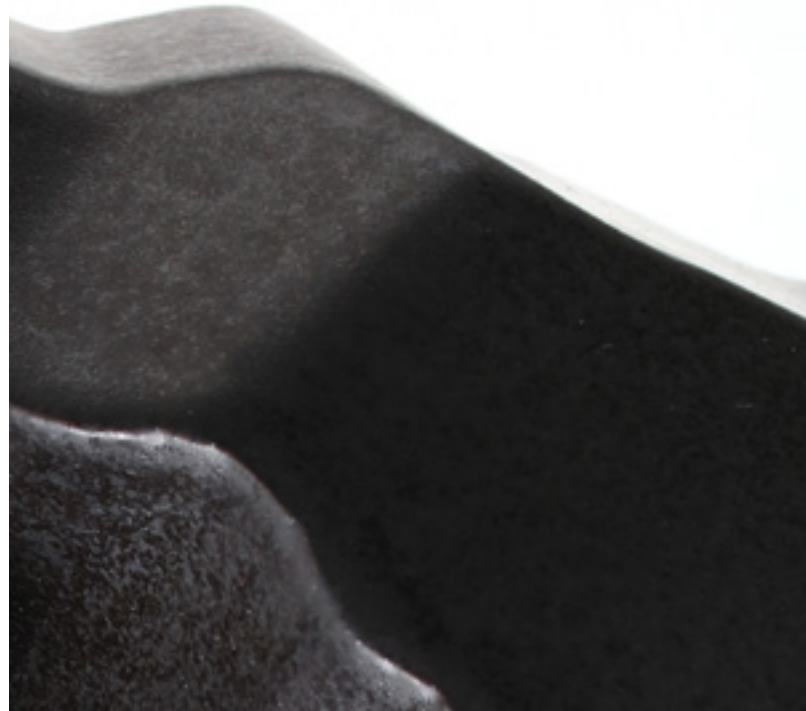

*Solitary massive blocks
emerge from the ocean,
elegant ice statues
shine with dazzling whiteness*

These are the inspirations of the new collection by *FOS Ceramiche*, which bears the signature of the architect and designer *Giovanni Luca Ferreri*. A collaboration that joins Ferreri's intuition with the technological knowledge gained over the years by the Italian Manufacture and results in the creation of a set of three vases /sculptures with a bold personality. Pure white, the signature style of *FOS*, changes shade every time light hits the glacier-like facets. The elegance of icebergs is thus honored by the use of a precious material such as porcelain, available also in the version with a platinum/blue facet or in total black. A collection that celebrates the majestic beauty of a Natural World that should be loved and protected.
